

Meet your team

The people behind your project.

Craig Lewis

FOUNDER AND DIRECTOR

Fifteen years and more in construction and project management, across residential and commercial conversions, and a BSc in Construction Management and The Environment behind it.

Craig leads every project at Hex360 and is the senior escalation point on every engagement. He is currently involved in live projects in Manchester and Carlisle. He acted as project manager to a contractor on a multi-million pound London project.

craig@hex360.co.uk · 07903 696 395 · Plymouth, Devon

Your Project Coordinator

NAMED TO YOU ON APPOINTMENT

Day-to-day operator of your live HEX360 Dashboard. Your coordinator keeps the daily logs, photographs, schedules and reporting flowing, so nothing slips through the cracks between site visits.

We name your coordinator and give you their direct contact details when your engagement starts, rather than putting a stock face on a PDF. You get the same person throughout, not whoever is free that week.

What we hold, and what we do not claim

Craig holds a BSc in Construction Management and The Environment, a CSCS card (Construction Skills Certification Scheme, the industry competence card), SMSTS (Site Management Safety Training Scheme, the site manager's safety qualification) and a first aid qualification. That is the list in full. Where we are not the right people for a piece of work, we will say so and tell you who is: we are not architects, structural engineers, solicitors, accountants or fire engineers, and we do not pretend otherwise. What we carry is fifteen years of running jobs, and the insurance to stand behind it.

BSc Construction Management and The Environment · CSCS · SMSTS · First Aid · Professional Indemnity £1m · Public Liability £5m · Employer's Liability £10m · Certificates on request.

Project Management with full transparency.

For Builders, Investors and Home Owners.
